Subject: Microsoft Settlement

To Whom It May Concern,

I would like to express my complete support for the settlement reached between the Department of Justice and Microsoft in the recent anti-trust trial. The settlement addresses all significant issues raised during the trial while at the same time avoiding excessive regulatory measures.

I believe that the terms of the settlement will give the parties who opposed Microsoft during the trial important new rights and abilities which will significantly enhance their competitive position. At the same time, the settlement preserves the right for Microsoft to continue to enhance its product based on customer feedback, which has been the fundamental reason for its enormous success.

My sincere congratulations go to both Microsoft and the Department of Justice for their continued commitment to come to a settlement that benefits American consumers and business.

Sincerely,

Mike Sax
